Nexonia and LinkedCPA Launch Integrated Expense Reports

Nexonia expense reports, after routing for approvals and with integrated receipt imaging, are automatically integrated with LinkedCPA

MT. PLEASANT, NC and TORONTO, ON – Nexonia and LinkedCPA today announced a partnership to automatically deliver expense report accounting data from Nexonia directly into LinkedCPA for use by LinkedCPA’s integrated QuickBooks and other financial systems. Starting today, companies that use LinkedCPA can now work with Nexonia to have their employees fill out expense reports, attach receipts (by scanning, fax, iPhone or Shoeboxed.com) and route them for approval and integration with LinkedCPA.

LinkedCPA is the leader in hosted technology, services & applications for today’s online CPA. With this new integration with Nexonia, LinkedCPA customers can now have Nexonia process expense reports online and automatically, knowing that full integration with LinkedCPA advanced hosting environment is available.

“LinkedCPA is helping our customers expand from their current financial systems into core business functions, which now includes expense reports from Nexonia. With this integration our customers can be confident that expenses are being well managed, tracked and integrated. We are excited to offer this integration to our affiliates as we believe it is one more powerful tool they can use to better service their clients and get the edge on competition.” said Scott West, LinkedCPA’s CIO.

“LinkedCPA is a great solution for simplifying financial systems and having solid controls around them. We’re excited about the integration with LinkedCPA because of their extensive system and range of services, meaning our

customers can be confident that not only are their expenses being well managed through Nexonia, but that this carries all the way through to the accounting systems supported by LinkedCPA.” said Neil Wainwright, Nexonia’s CEO.

About Nexonia (<http://www.nexonia.com>)

Nexonia is a highly advanced expense report tracking application built specifically for the demanding needs of organizations who need to enter, approve, manage and analyze their expenses. Nexonia is fully hosted, managed and backed up. There is nothing to install and it works on all commercial web browsers (PC, Mac & Linux).

Other features of Nexonia:

- Seamless and easy to use web interface
- Flexible approval processes to match any business
- 161 currencies and daily exchange rates
- Integration with accounting systems, including QuickBooks and payroll providers

About LinkedCPA (<http://www.linkedcpa.com>)

Today, more companies are looking for ways to cut back on office space needs, commute demands and dealing with a mobile world where the best employees for their company might be located 1,000 miles away. LinkedCPA has been working with this community since 1996, and the tools we have developed are unmatched in the accounting world. Our focus is the accountant, and the companies they work with. We take commute and make it telecommute, yet create a bond between accountant and client that feels as if they are sitting in separate offices in the same building.

Other features of LinkedCPA:

- Accounting access 24/7/365
- Realtime document management
- Flow of work through admin monitored control panel
